

### A824 - Chem 350 Butyl Gauntlet

**Collection:** Chemical Protection Gloves

**Range:** Hand Protection

**Materials:** Butyl

**Outer Carton:** 120

#### Product information

Engineered for extreme environments, the A824 Butyl 350 provides superior protection against aldehydes, ketones, esters, and concentrated mineral acids—ensuring safety in high-risk industries. Ergonomic comfort designed with a naturally curved shape and soft material, these gloves offer a comfortable fit, reducing hand fatigue while making donning and doffing effortless. Enhanced flexibility & dexterity soft butyl formulation allows for exceptional flexibility, ensuring precision and ease of movement without compromising protection. Superior grip performance rough-textured palm reinforces grip strength, providing secure handling in wet or hazardous conditions. Choose the A824 Butyl 350 for reliable, high-performance protection in the most demanding work environments.

#### Chemical Protection Gloves

Working environments using hazardous chemicals and substances can be extremely harmful to workers and the correct protection is a must. Portwest supplies a range of gloves which are fully tested and certified to protect from a range of chemicals.

#### Hand Protection

A wide and increasing range of hand protection products is available. In order to help cater to every need. Only the best materials and manufacturing methods are used in the production of Portwests' extensive range of Hand Protection products....
